FOR IMMEDIATE RELEASE

## **MARWOOD GOES INTERNATIONAL WITH NEW NAME & BRAND**

**TILLSONBURG, Ontario, July 12th, 2018** - Marwood Metal Fabrication Ltd. is formally announcing today that it will begin operating under Marwood International Inc. (effective as of 01-Jun-18). Marwood International is an award-winning, automotive stamping, modular assembly, and e-coating company that is focused on supplying a global customer footprint with innovative products and processes.

With a heightened awareness on light weighting & waste reduction initiatives Marwood International has grown from a small local business to an internationally recognized supplier. While the company has shown significant growth over the past 27 years it has not forgotten its core principles and roots. The small company feel with big company technological capabilities paired with an attitude of never being satisfied is what has set Marwood apart from the field.

Marwood International currently employs a large and creative team with more than 150 different job positions. The organization is proud to have received numerous community and manufacturing awards. Marwood International has a current streak of 10 consecutive years without any lost time work related accidents. This name and overall brand change is a direct reflection of the ever-growing technology of lightweight car parts being made with new and exotic materials and our business relationships expanding to a more global presence.

Our Company and entire Team is proud to be *More Than Metal!*
